m.BoxOffice for attractions and museums

Your box office. Always with you.

A modern, easy-to-use mobile box office for selling and checking tickets. It runs on a smartphone or a dedicated professional handheld device with a built-in printer and scanner. It issues fiscal receipts and all ticket types.

Shorter queues. More tickets sold.

On your busiest day there are never enough ticket windows. With m.BoxOffice you open an extra point of sale where you need it: in the queue at the gate, in the car park, as groups arrive or on the way to the attraction.

Sell at the gate. Scan at the door.

m.BoxOffice has built-in ticket scanning. The same device sells a ticket and checks it at the entrance.

A mobile box office, wherever your visitors are.

Everything a modern box office should do

- Time slots and packages
- Several attractions in one purchase
- Multiple ticket types and discounts at once
- Company invoices and buyer details
- Printed tickets and receipts
- Ticket scanning at the entrance
- Cash, payment cards, gift and prepaid cards
- Separate cash-up and shift closing for every seller

Same time slots and packages in every channel

Time slots, packages and combined tickets are the same as online and at the box office. You never oversell a time slot.

Fiscal receipts

You can also invoice companies. No separate cash register needed at the gate.

For groups and agencies

Issue a company invoice to a tour guide or travel agency right on the spot.

Souvenirs too

m.BoxOffice sells souvenirs as well as tickets.

Alongside self-service solutions

Kiosks handle quick purchases, while staff with m.BoxOffice help visitors who need advice and sell where there is no kiosk.
